

MGM Resorts Powers Up to 100% of Daytime Las Vegas Strip Electricity with Solar

MGM RESORTS
INTERNATIONAL®

LAS VEGAS (January 20, 2026) – MGM Resorts International (NYSE: MGM) ("MGM Resorts" or the "Company") has reached a significant milestone in its renewable energy strategy, now powering up to 100% of its daytime electricity needs on the Las Vegas Strip with solar energy. The achievement was made possible after the Company began

receiving 115 MW of solar energy and 400 megawatt-hours (MWh) of battery storage in December of 2025 from the recently completed Escape Solar and Storage Project, located in Lincoln County, Nevada.

By combining power from the newly activated Escape Solar and Storage Project with the Company's 100-megawatt (MW) Mega Solar Array, MGM Resorts has more than doubled its access to renewable energy. In addition, the battery system from Escape Solar allows MGM Resorts to store solar energy generated during peak production hours and use it during evenings and other lower-production periods.

"With this new project coming online, we are accelerating progress toward our goal of using 100% renewable electricity domestically by 2030," said Bill Hornbuckle, CEO and President of MGM Resorts. "Together with our Mega Solar Array, the new Escape Solar and Storage Project reflects our focus on scalable, impactful clean-energy solutions. It also demonstrates that our industry can operate more sustainably while delivering long-term cost stability, strengthening our business and supporting a more resilient energy future."

MGM resorts announced a [25-year power purchase agreement](#) with Escape Solar LLC in September of 2024 to amplify the Company's renewable energy capabilities and extend production to cover up to 100% of its Las Vegas properties' total daytime needs.

As an operator of large-scale resorts, MGM Resorts remains focused on expanding renewable energy use to lower long-term energy costs and mitigate exposure to energy price volatility. Since 2016, the Company has significantly reduced carbon emissions through investments in renewable energy projects, including:

- 323,000-panel Mega Solar Array providing 100 MW to MGM Resorts locations in Las Vegas
- 26,000 solar panels atop the Mandalay Bay Convention Center providing 8.3 MW to that property
- 100-kW rooftop solar array to help power T-Mobile Arena
- 3,456 solar panels atop the parking garage at MGM Springfield in Massachusetts

FORWARD-LOOKING STATEMENTS

Statements in this release that are not historical facts are forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, and involve risks and/or uncertainties, including those described in the Company's public filings with the Securities and Exchange Commission. Forward-looking statements can be identified by the use of forward-looking terminology such as "believes," "expects," "could," "may," "will," "should," "seeks," "likely," "intends," "plans," "pro forma," "projects," "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. The Company has based forward-looking statements on management's current expectations and assumptions and not on historical facts. Examples of these statements include, but are not limited to, the Company's expectations regarding its renewable electricity capabilities and access, including in connection with the Escape Solar and Storage Project. Forward-looking statements depend on assumptions, data or methods that may be incorrect or imprecise, and the Company may not be able to realize them. The Company does not guarantee that its renewable electricity capabilities, access, milestones or other events described herein will happen as described (or that they will happen at all). These forward-looking statements involve a number of risks and uncertainties. Among the important factors that could cause actual results to differ materially from those indicated in such forward-looking statements include risks related to the economic and market conditions in the markets in which the Company operates and competition with other destination travel locations throughout the United States and the world, the design, timing and costs of conversion or expansion projects, risks relating to domestic and international operations, permits, licenses, financings, approvals and other contingencies in connection with growth in new or existing jurisdictions and additional risks and uncertainties described in the Company's Form 10-K, Form 10-Q and Form 8-K reports (including all amendments to

those reports). In providing forward-looking statements, the Company is not undertaking any duty or obligation to update these statements publicly as a result of new information, future events or otherwise, except as required by law. If the Company updates one or more forward-looking statements, no inference should be drawn that it will make additional updates with respect to those other forward-looking statements.
