

A Walk Through ARIA Resort & Casino

ARIA Resort & Casino is a fusion of energy, inspiration and vision. ARIA has refined and redefined the Las Vegas Strip with an unprecedented combination of striking architecture, sustainable design, high-end service and spectacular amenities. Guests are swept away by its breathtaking beauty, stunning innovation and the refreshing level of consciousness found in every detail. Even in a city such as Las Vegas, with an extraordinary history of dynamic cutting-edge developments, ARIA creates a new generation of resort experiences, unlike anything Las Vegas has ever seen. Recognizing the remarkable nature of this resort, AAA awarded ARIA its prestigious Five Diamond award in its first year of operation and one year later bestowed a second Five Diamond upon the ARIA Sky Suites.

Arrival

As guests stand on ARIA Place, the development's grand boulevard, they are instantly captivated by the energy of this city. The sheer power and ambition of the stunning architecture, born from the imaginations of the world's foremost talents, leaves all who visit both awestruck and inspired.

ARIA's distinction from other hotels on The Strip is evident at first sight. It embodies the excitement and vitality of Las Vegas in a 21st century building; offering up a shimmering world of reflections.

Designed by the world-renowned firm Pelli Clarke Pelli, ARIA's architectural expression reveals itself at every turn, from its two sweeping curvilinear steel and glass towers to the clean use of natural elements including lush foliage, wood and stone. Soaring open spaces, ranging from ARIA's three-story lobby to its guestrooms, fill with natural light and evoke breadth and freedom. Art and interior design envelop guests in warm, comforting surroundings and provide a sense of human scale.

Pelli Clarke Pelli has built some of the world's most monumental buildings: the Petronas Towers in Kuala Lumpur, Canary Wharf Tower in London and New York's World Financial Center. The result his vision for ARIA is crystalline towers that establish dramatic, yet symbiotic relationships with its neighboring hotels, residences and retail destination; ARIA truly stands in harmony with its surroundings.

Water Expressions by WET

Both ARIA's north and south porte cochères feature dynamic water displays by WET, known for The Fountains of Bellagio and The Mirage Volcano. WET was charged with creating five exclusive water experiences that exist nowhere else in the world, focusing on ingenuity versus size. Three of the features reside at ARIA and two at Crystals, the development's luxury retail destination.

In the center of Casino Circle at ARIA's south porte cochère sits **Lumia**, a large reflective pool above which dynamic water expressions sway and leap, creating performances ranging from highly energetic to sculpturally majestic. An arc of twisting water ribbons collide in midair, generating giant firework-like sparks that appear to outshine the sun's rays, producing an intense spectral display, even in broad daylight.

At 270-feet long, **Focus** is a striking curved water wall spanning the width of ARIA's south porte cochère. Bathed in brilliant white light, the water washes down the tall, sloped matrix of grey slate cubic tiles, enveloping visitors in its luminous presence and sweeping surges of choreographed water.

Latisse sits within the soaring atrium of ARIA's north entrance. Four separate water walls rise 40 feet, spanning from the resort's lower-level north valet to the balcony on the lobby's upper level. Dazzling white light illuminates the water as it rushes down the textured glass, producing the illusion of a floor-to-ceiling liquid chandelier.

Lobby

Located off of ARIA Place, ARIA's arrival lobby sets the stage for the design philosophy throughout the resort: elements of nature's beauty blend with contemporary interiors for dramatic effect. An undulating ceiling anchored by soaring wooden beams frames the park-like setting, where guests can relax on benches beneath sculptured foliage canopies lit from above to suggest sunlight peeking through the leaves.

The focal point of the space is a signature piece from ARIA's public Fine Art Collection. Delicately adorning the lobby's panoramic glass wall is Maya Lin's "Silver River," an 84-foot cast of the Colorado River made entirely from reclaimed silver. Natural light flows through the floor-to-ceiling glass wall, which erases all boundaries between indoors and out and offers a glimpse into The Park, which separates ARIA from Crystals. Also visible in The Park is Henry Moore's "Reclining Connected Forms," a Roman travertine marble sculpture depicting a baby wrapped in its mother's embrace.

A tree-lined path guides the way to several of ARIA's signature restaurants including Sage, an American bistro by Chef Shawn McClain and Julian Serrano, the chef's namesake Spanish tapas concept.

Guests entering ARIA through the north entrance encounter an equally impressive starting point. A magnificent glass wall spans ARIA's entire north façade, affording views of Vdara Hotel & Spa's spectacular architecture and "Big Edge," a gravity-defying work of art by Nancy Rubins. An infusion of natural light transforms the space into a welcoming arrival experience, accented by the four illuminated water walls of Latisse.

ARIA's north entrance provides convenient access to signature restaurants including Chef Michael Mina's French bistro BARDOT Brasserie, Carbone, New York City's critically acclaimed hotspot, and Jean Georges Steakhouse, a hip and vibrant steakhouse experience by Chef Jean-Georges Vongerichten.

Art at ARIA

ARIA presents the first major permanent collection of art in Las Vegas to be integrated into a public space. The public ARIA Fine Art Collection enlivens the street and engages passersby. As if in a strolling gallery, guests happen upon works by world-renowned artists such as Maya Lin and Nancy Rubins as they wander through the walkways, hotels and residences. From vibrant and ornate to intimate and serene, these works are strategically placed to reveal a world of fascinating experiences that unfold around every corner.

At ARIA, New York-based artist **Maya Lin** has created her first work of art in Las Vegas: “Silver River,” an 84-foot silver cast of the Colorado River. Lin’s installation mirrors ARIA’s commitment to sustainability, in fact, it was the resort’s quest for LEED® Gold certification by the U.S. Green Building Council that drew her interest in the development. The sculpture is inspired by the movement of the river through Nevada’s desert landscape, and the major water and energy source that it represents to the Las Vegas area. In light of Nevada’s standing as “The Silver State,” Lin used 100 percent reclaimed silver to develop her creation.

“Silver River” took nearly three years to develop and weighs approximately 3,700 lbs. Perched high above ARIA’s reception desk, the piece can be enjoyed both from the lobby as well as The Park between ARIA and Crystals.

In ARIA’s north valet exit, guests encounter, “VEGAS,” one of **Jenny Holzer’s** insightful LED signs spanning more than 260 feet. The piece displays her thought-provoking phrases, including some from her famous work “Truisms,” scrolling across the LED wall. Because ARIA attracts visitors from around the world, Holzer included international proverbs as a way to welcome, include and intrigue. Guests are drawn to her work’s clarity, bold consistency and striking distinction from the extravagant nature of Las Vegas. Holzer aimed to create a seamless visual environment where the interior area of ARIA’s north valet and the exterior canopy are in dynamic play. Her piece serves not only to charm visitors into thinking about what they are reading, but also to envelop them in the quiet energy of the space.

ARIA’s self-park entry lobby features three sculptures by **Tony Cragg** that examine the relationship between nature and the man-made world. “Bolt” (2007) is a 10-foot-high stainless steel sculpture that swirls upward from its narrow base in an imaginative bolt of lightning; “Bent of Mind” (2008), measuring approximately 6.5 feet tall and weighing 1,587 pounds, portrays an elegant silhouette of a face; and “Untitled” (Tall Column, 2008), standing approximately 15 feet tall and weighing approximately 2,932 lbs., presents a graceful, swirling form.

ARIA’s Signature Restaurants

ARIA has assembled many of the best and brightest chefs and restaurateurs from around the country, uniting those who have played integral roles in the development of Las Vegas’ culinary scene with a pair of remarkable Las Vegas newcomers.

Specialty Dining Restaurants on ARIA's Casino Level:

Sage - Chef Shawn McClain opened his first restaurant outside of Chicago – Sage at ARIA. The New American menu laced with strong Mediterranean subtexts spotlights the chef's culinary finesse through the seasonal plentitude of neighboring California and the Pacific coast. Just-picked produce, artisanal meats and sustainable seafood converge in signature McClain creations, enjoyed in a sophisticated yet comfortable dining space designed by Jacques Garcia Decoration. McClain built his reputation for innovative flavor juxtapositions through an impressive string of Chicagoland success stories and a full plate of national accolades. The seafood-centric menu of his first restaurant, Spring, drew immediate raves upon opening in 2001, earning a coveted James Beard Foundation Best New Restaurant nomination as well as catapulting McClain to national recognition with *Esquire* magazine's Chef of the Year title. In 2004, he flexed his culinary muscle with the vegetable-focused Green Zebra, followed a year later by Custom House, a modern interpretation of the classic steakhouse. In 2006, McClain was recognized by the James Beard Foundation as Best Chef Midwest. Sage received the AAA Four Diamond Award in 2011, the first restaurant at ARIA to earn the prestigious accolade.

Julian Serrano - Award-winning Chef Serrano shares his first professional exploration of his native Spanish cuisine with his eponymous restaurant at ARIA. Julian Serrano challenges the boundaries of classic Spanish fare with both traditional and innovative tapas, seafood, paella and more. Designed around multiple menus, the 196-seat restaurant pleases fast-paced Las Vegas travelers and lingering diners alike with its flexible options. The first restaurant in the United States designed by famed Spanish design group Gente de Valor, Julian Serrano captures the convivial social energy of Spain's tapas bars with inventive food and an imaginative patio setting. A native of Madrid, Serrano developed his talent for French cuisine in some of Europe's most celebrated kitchens and has brought his memorable cooking to Bellagio as Executive Chef of Picasso (11-time recipient of the AAA Five Diamond Award). He has earned the prestigious James Beard Foundation Award twice, as Best Chef California in 1998 and Best Chef Southwest in 2002. Julian Serrano at ARIA brings the chef home again, as he reveres and reinvents Spanish cuisine.

Herringbone Las Vegas – Chef Brian Malarkey's acclaimed ocean-to-table concept, Herringbone, features a Las Vegas spin on the wildly successful flagship locations in La Jolla, CA and Santa Monica, CA. While staying true to its signature "Fish Meats Field" philosophy and offering market-driven creations from Executive Chef Geno Bernardo that juxtapose the flavors of sea and land, Herringbone Las Vegas offers a relaxed yet refined dining experience with lounge-style seating and nightly live music. Complementing the distinctive cuisine is a selection of whimsical cocktail specialties, a thoughtfully composed wine list spotlighting international varietals served by the glass and by the bottle as well as a host of craft beers and a variety of fresh juice mocktails.

Javier's – The popular Southern California and Los Cabos dining destination, Javier's, brings its regionally inspired Mexican cuisine and décor to ARIA. Known for its authentic cooking techniques and dedication to using only the freshest, high quality ingredients, Javier's menu selections are derived from generations of family recipes gathered by Co-Founder Javier Sosa. Dishes include a variety of seafood, steaks, chicken and vegetarian selections along with Javier's famous hand shaken, made-to-order margaritas. The only thing capable of rivaling the restaurant's cuisine is its décor. Conceived by designer Dodd Mitchell, every detail of the venue's design was created to emit a warm, inviting and sensuous ambiance. The artistic anchor of the restaurant's décor is the world's largest piece of chainsaw art, spanning 25 feet and weighing 3,000 pounds, carved by celebrated artist J. Chester Armstrong. The intricate work of art features five 5 x 10-foot panels illustrating the Mayan Creation myth blended with modern Mexican history.

Jean Philippe Pâtisserie - Award-winning pastry chef Jean-Philippe Maury brought beauty, whimsy and sublime indulgence to ARIA with the launch of his second Parisian-style pastry shop: Jean Philippe Pâtisserie. Echoing its sister shop in Bellagio, the pâtisserie displays an array of sweet and savory treats as tenderly as rare artifacts, then quickly finds its own voice with unique new features: a larger layout, incorporating an 85-seat café for relaxing over snacks or quick gourmet meals from an on-site kitchen; a 20-flavor line of house-made gelato; gourmet meal boxes to go for picnics or the plane; a retail line of ready-made meals; exquisite chocolates by the piece; and seasonal delicacies. Maury and design team Norwood Oliver Associates combined their likeminded ingenuity once again to demonstrate that pleasure in food owes as much to the eye as it does to taste.

Blossom - Guests of Blossom discover the triumphs of Chinese dining through a 100-dish line-up that spans every preference, from the comfortably classic to the cutting-edge. Between its two meticulously fashioned menus, Blossom offers the best of China's culinary wisdom tailored for the western palate and a more contemporary Chinese collection brimming with trend-forward dishes fresh from Beijing and Hong Kong. The modern décor by Studio A Design brightens traditional Chinese design principles with a contemporary color palette apropos of the festive backdrop of Las Vegas. Bursting with exotic ingredients, intoxicating aromas and welcome surprises, Blossom invites to its tables fans of both classic and modern Chinese cuisine.

Lemongrass - The first Thai restaurant in a resort on the Las Vegas Strip, Lemongrass offers a modern interpretation of Thai cuisine. Designed by James Beard Award winner AvroKo, Lemongrass features a bar and lounge and two private dining rooms. Serving lunch and dinner, guests can enjoy authentic Thai dishes such as Papaya Salad, Pad Thai and traditional Thai curries. An interactive satay bar features beef, poultry, pork and seafood skewers grilled on an open fire, served with a variety of seasonings. The expansive bar showcases inspired Asian cocktails and teas. Lemongrass' Chef Krairit Krairavee joined ARIA from the chic Le Fenix Hotel in Bangkok, Thailand, where he was executive chef.

Specialty Dining Restaurants on ARIA's Promenade Level:

Carbone – New York's critically acclaimed Carbone, a concept from Mario Carbone, Rich Torrisi and Jeff Zalaznick, pays homage to the Italian-American restaurants of the mid-20th century, an era of glamour, showmanship and tableside service. The food is inspired by the same time in history, but takes cues from the great talents and techniques of today showcasing elevated classics such as Lobster Fra Diavola, Chicken Scarpariello, Veal Parmesean and Octopus Pizzaiolo. Abundance, hospitality and generosity are key themes for the restaurant. The waiters – known as “Captains” – are exceptionally skilled professionals hand selected by the Carbone family to deliver the entertaining attitude and premier service for which the restaurant is renowned. The Captains don iconic burgundy tuxedos created by legendary fashion designer Zac Posen to reflect the fashion during the late 1950s. All elements of the Carbone experience are carefully curated – from the hand-painted plates that remind diners of grandma's house to era-specific music – to bring Carbone's unique soul to life.

BARDOT Brasserie – Transporting guests to the heart of Paris, BARDOT Brasserie is the newest concept from James Beard Award-winning Chef Michael Mina. Paying homage to the skillful culinary techniques, celebrated libations and sexy atmosphere for which The City of Light is renowned, Chef Mina has created a stylish and unforgettable interpretation of a Parisian brasserie in the center of the Las Vegas Strip. Guests can feast on imaginative dishes such as the classic French Onion Soup elevated with Perigord Truffles, braised oxtail and a poached egg; Duck Wings À L' Orange; Sautéed Skate Wing; and a signature Foie Gras Parfait. Weekend patrons will enjoy the venue's lively Parisian brunch, featuring \$20 everlasting rosé wine and delectable dishes such as the perfected Croque Madame, Brioche French Toast and Lobster Benedict served atop a freshly baked croissant. BARDOT also boasts an outstanding beverage program including a thoughtfully curated wine list with extensive by-the-glass selections, innovative mixology, its own exclusive craft beer and an impressive collection of historic, rare spirits like Cognac and Chartreuse.

Jean Georges Steakhouse - Michelin three-star, James Beard Award-winning chef Jean-Georges Vongerichten pushes the boundaries of traditional steakhouse expectations with his decidedly contemporary rewrite – Jean Georges Steakhouse. Under his gifted direction, the highest-quality meats and seafood from around the world cook to perfection with flavor-releasing techniques, then receive a signature Vongerichten jolt via unexpected sauces and side dishes. Alive with bold, often Asian-inflected seasonings, house-made steak sauces, mustards, rubs and flavored salts deliver a take-no-prisoners satisfaction, while sides burst with the atypical flavors of steamed pumpkin, roasted porcini mushrooms and truffle. An amphitheater-inspired layout by Dupoux Design sections the space into a high-octane lounge, elevated dining areas for maximum “see-and-be-seen” excitement and a private chef’s table. This masterful spin on a time-worn tradition melds beloved steakhouse touches with a chic, in-the-now experience.

Casual Dining

ARIA Café - Stretching along ARIA’s north wall is the 600-seat ARIA Café, open 24/7 and serving three meals daily in one of the city’s largest café spaces. The design by Bentel & Bentel – known for their spectacular work on the restaurant at New York’s MoMA – incorporates a 40-foot-high glass wall spanning ARIA’s north face. Spectacular views of Vdara Hotel & Spa and Nancy Rubins’ “Big Edge” art installation are supplemented by streaming natural light throughout the space. Inside, moments of garden sculpture interact with a stone-cliff motif. Along the café’s exterior, hundreds of stacked stones are faced in frosted glass and subtly back-lit for a calming, pastoral welcome.

The Buffet – The Buffet at ARIA welcomes guests into a spacious and vibrant dining room featuring floor to ceiling windows overlooking the lush ARIA pool deck. The rich color scheme with copper hue accents provides a warm atmosphere and a relaxing environment for guests to enjoy an assortment of eclectic indulgences. The all-you-can-eat culinary selections are a thrill ride for palates featuring traditional buffet favorites such as unlimited crab legs and grilled prime meats carved to guests’ specifications along with high-quality ethnic specialties from around the world. Delicious kabobs, freshly baked naan bread and other savory dishes are prepared in one of the only Tandoor Oven’s in a Las Vegas buffet. Eleven buffet stations specializing in custom creations such as made-to-order pastas and omelets make dining a fun and interactive experience.

FIVE50 Pizza Bar – After the huge success of Sage restaurant, James Beard award-winning chef Shawn McClain created his first casual concept, FIVE50 Pizza Bar. This high-energy and modern restaurant brings an authentic East-coast style pizza experience with American craft beers flowing from the taps. Guests can enjoy an elevated pizzeria experience by-the-slice or with the entire pie. Small plates, pastas and the meat and cheese bar round out the menu to provide a palate-pleasing dining adventure. FIVE50 streams lively music throughout and fills the multiple TV's with the latest sports events. The name FIVE50 is inspired by the temperature at which the pizza is cooked and is also the time when the pizza bar celebrates a special happy hour offering daily.

Sustainability

ARIA is one of the world's largest sustainable developments, bringing a new level of environmental consciousness to the world-famous Strip. The U.S. Green Building Council has awarded LEED® Gold certification to ARIA's hotel tower, convention center and theater, making it the largest building in the world to receive that level of recognition. ARIA's design incorporates sustainable features including the extensive use of natural light, dramatically reducing lighting power requirements in guestrooms and water-saving fixtures throughout. ARIA has been designed to achieve more than 30 percent improvement in energy efficiency and saves an estimated 31 million gallons of water each year. This equates to a 40 percent savings within the building and 60 percent in outdoor landscaping, over existing building codes.

As part of its commitment to sustainability, ARIA offers high-tech slot machines, for which the bases double as air conditioning displacement ventilation units cooling from the ground up, providing an energy-efficient amenity that ensures a more comfortable and healthy gaming environment.

For meetings, conventions and events, ARIA incorporates environmentally responsible practices and services. In addition, all convention sales kits are made from recycled paper materials with the exception of the outside wrap, and uniforms in the convention area are woven from recycled polyester.
