**LAS VEGAS (March 12, 2025)** – Bellagio's Conservatory & Botanical Gardens invites visitors to experience the magic of spring with its newest display, "The Birds and the Bs," now open to the public through May 17. Imagined by designer Ed Libby and brought to life by Bellagio's Horticulture team, this enchanting exhibit transports guests into a pastel wonderland, embodying transformation with stunning botanical masterpieces, wildlife-inspired elements and whimsical scenes that captivate the senses.

The name "The Birds and the Bs" is a playful nod to spring and nature, evoking images of pollination, growth and the vibrancy of the season, while the "Bs" also pay homage to the iconic Bellagio "B" that appears throughout the display, subtly weaving the resort's signature identity into the garden's storytelling.

"The spring display was created to honor nature's beauty and the sense of renewal that comes this time of year," said Libby. "We invite guests to immerse themselves in a world where Bellagio's signature glamour intertwines with the whimsy and romance of spring. From the charm of the birds and the bees to the glowing allure of a walk-through beehive, each element of the exhibit celebrates the enchanting transformation that makes this season so extraordinary."

**West Bed**
At the heart of the West Bed is Mother Earth, an impressive 18-foot-tall statue celebrating the season of change. Surrounded by vibrant wildflowers, Mother Earth wears a bonnet made of the finest spring botanicals while larger-than-life butterflies and finches soar above. On the left of the bed, an inviting woodland birdhouse serves as home to **The Garden Table**, an immersive dining experience where guests can enjoy a spring-inspired menu within the beauty of the garden.

**North Bed**
The North Bed features a striking waterfall cascading into a serene pond below. The signature Bellagio "B" emerges through the falling droplets, framed by a tapestry of lavender blooms. Striking purple pansies sculpted from live carnations and botanicals add a fresh and fragrant palette to the scene, inviting hungry birds to feed on their nectar. LED screens filled with natural imagery illuminate the bed from behind, while a harmonious soundtrack and a sweet honeysuckle scent fill the air. Guests can bring home a piece of the Conservatory with the bespoke candle, *Nectar*, available for purchase at the Giardini Store.

**East Bed**
A captivating 18-foot-tall beehive crafted from birch tree bark serves as the centerpiece of the East Bed. Guests can walk along a stone pathway through the beehive, where an intricate golden honeycomb illuminates the hive from within. Floral bees hover above, gathering nectar and producing honey as a symbol of hard work and cooperation. A gilded honeypot, adorned with the Bellagio "B," spills its sweet contents onto the bed. Yellow roses and climbing stephanotis bloom in full glory, creating an inviting atmosphere of joy that complements the beauty of spring.

**South Bed**
In the South Bed, three baby birds hatch inside a grand 18-foot nest, nestled among artfully crafted Fabergé-style eggs and watched over by adult birds flying above. Below them, a vibrant kaleidoscope of orange, white and gold koi fish glide through a tranquil pond, symbolizing harmony, strength and good fortune. To the left, live finches flit within a deftly crafted birdcage, while a radiant caterpillar named *Cassandra* rests atop a nearby branch, surveying the scene. Wisteria trees in full bloom surround the delicate creatures, creating a symphony of lavender hues that add to the scene's beauty.

**The Garden Table**
Visitors are invited to embark on a one-of-a-kind culinary journey at The Garden Table, hosted within a charming woodland birdhouse at the heart of the Bellagio Conservatory. Guests can experience an exclusive dining experience within the spring wonderland with brunch service from **Sadelle's** at $145 per person and dinner from **MICHAEL MINA Bellagio** at $195 per person.

Reservations are required. To book and find more information, call 702.693.7075 or go online.

**Sustainability at the Conservatory**

Water used in Bellagio's Conservatory and Botanical Gardens comes from on-site underground wells that use rain and recycled water from the resort, avoiding the use of municipal potable water. The water in the Conservatory is also recycled throughout the exhibit and reused at the resort. Bellagio's water conservation efforts are part of MGM Resorts International's overall sustainability commitment.

At the conclusion of each display, plants and botanical material without remaining viable life are separated for collection by a local composting facility. The organic waste is made into compost products to help improve the environment. This method of recycling keeps thousands of pounds of waste out of local landfills and turns it into something that improves the region's soil, air and water quality.
