**LAS VEGAS (September 17, 2025)** – Bellagio's Conservatory & Botanical Gardens unveils its breathtaking fall display, "Autumn Majesty: A Glamorous Harvest," on view through November 8. Created by designer Ed Libby and Bellagio's talented Horticulture team, the exhibit transforms the Conservatory into a golden-hued wonderland where the spirit of the harvest is revealed through whimsical design, vibrant botanicals and immersive details that celebrate the season's abundance and renewal.

"Designing the fall display meant more than celebrating the harvest season - it was about creating a world where guests can fully immerse themselves in the magic of autumn," said Libby. "Every detail was carefully crafted to spark joy, ignite the imagination and invite visitors to pause and savor the pageantry, glamour and fleeting beauty of this special time of year."

**West Bed**
On the left of the West Bed, a towering 37-foot tree stretches its branches around an enchanting moss-covered treehouse. At the center, a magnificent Colossus – modeled after the Roman god Bacchus – presides over the landscape, presenting an overflowing cornucopia with its bounty cascading into a shimmering pond below. Nestled nearby, a grand emerald pumpkin houses **The Garden Table**, an exclusive dining experience featuring brunch by Sadelle's and dinner by MICHAEL MINA Bellagio.

**North Bed**
The North Bed transports visitors into a mushroom forest, home to a royal frog family. At the bed's center, Queen Lilybrook, a striking orange-and-black frog, sits proudly on her stone throne. Surrounding the scene, poppy and mushroom-shaped topiaries made of fresh flowers bloom in abundance. Behind the North Bed, LED screens create a backdrop of vivid color and endless movement, complemented by delightful sounds and a seasonal signature fragrance of fresh apple cider. Guests can bring the experience home with Bellagio's bespoke "Glamorous" apple cider candle available at the Giardini Store.

**East Bed**
At the heart of the East Bed rises a spectacular 23-foot pumpkin palace crowned with a shining Bellagio "B," symbolizing knowledge and exploration. Its gilded canopy shelters guests beneath intricately sculpted metalwork adorned with stained-glass dragonflies and golden leaves. Pumpkin fountains replenish the glimmering pond below, while cattails and rich fall foliage in hues of orange, burgundy and brown spread across the garden floor.

**South Bed**
The South Bed features a cozy 16-by-16-foot pumpkin house, providing a haven for a parliament of owls who rest peacefully by a gentle waterfall. Overhead, birch branches draped in autumnal botanicals and graceful dragonflies stretch across the bed. Below, a lush tapestry of Crotons, Heuchera, Coleus and Chrysanthemums create a fall mosaic, while hundreds of pumpkins and gourds scatter across the landscape, representing prosperity and gratitude. Soft radiant mushroom lanterns and trickling fountains complete the serene harvest setting.

**The Garden Table**
Guests can reserve a one-of-a-kind dining experience inside an emerald pumpkin in the heart of the Conservatory at The Garden Table. The exclusive dining experience immerses visitors in the autumn forest, with brunch service from **Sadelle's** at $145 per person and dinner from **MICHAEL MINA Bellagio** at $195 per person.

Reservations are required. To book and find more information, call 702.693.7075 or goonline.

**Sustainability at the Conservatory**
Water used in Bellagio's Conservatory and Botanical Gardens comes from on-site underground wells that use rain and recycled water from the resort, avoiding the use of municipal potable water. The water in the Conservatory is also recycled throughout the exhibit and reused at the resort. Bellagio's water conservation efforts are part of MGM Resorts International's overall sustainability commitment.

At the conclusion of each display, plants and botanical material without remaining viable life are separated for collection by a

local composting facility. The organic waste is made into compost products to help improve the environment. This method of recycling keeps thousands of pounds of waste out of local landfills and turns it into something that improves the region's soil, air and water quality.

**"Autumn Majesty: A Glamorous Harvest" 2025 Fall Display by the Numbers**

- **700,000:** Autumn-colored leaves throughout the display
- **31,000:** Fresh cut carnations used to create mushroom topiaries
