LAS VEGAS, NV (September 3, 2026)— [The Chandelier](#), the radiant three-story cocktail haven at [The Cosmopolitan of Las Vegas](#), has unveiled a refined new chapter, featuring an innovative beverage program and elegant interior enhancements designed to elevate the guest experience.

"This new program reflects the evolution of The Chandelier as both a design masterpiece and a showcase for cocktail expression," said Gedeon Tsegaye, Head of Mixology at The Cosmopolitan of Las Vegas. "Every element was approached with intention, from the ingredients and techniques to the presentation. Together with the venue's thoughtfully reimaged interiors, the cocktails create a layered journey of discovery that unfolds with each level, inviting guests to engage with The Chandelier in a way that feels immersive, sophisticated and unexpected."

Beverage Program

Created by Tsegaye, the new menu celebrates cocktail innovation through inventive techniques, and seasonal inspiration. Designed to encourage exploration, the program invites guests on a multisensory journey through every corner of the venue. Each distinct destination presents its own curated repertoire, complemented by four signature cocktails and three spirit-free alternatives, allowing guests to chart a personalized path of discovery and indulgence. Inspired by the changing seasons, the new beverage collection pairs fresh fruits, herbs, florals and warming spices with artful mixology to create sophisticated beverages that capture the spirit of The Chandelier. House-made foams, aromatic airs, smoked glass presentations, confections and custom garnishes transform each cocktail into an unexpected, multisensory experience – from the first presentation to the final sip.
